NUMBER OF LIVESTOCK INCREASING IN MONTENEGRO; GIVES DATA ON FORESTED AREA

The following table shows the postwar increase in livestock in Montenegro:

Yr	Horses	Cattle	Sheep	Hogs	Poultry	Beehives
1939	31,780	174,500	669,470	38,097	305,310	38,375
1950 (beginning)	19,636	188,354	510,410	47,150	274,297	46,516
1950 (end)	20,730	195,116	606,349	49,510	320,000	50,620

At present, there are 1,990,000 fruit-bearing trees in Montenegro; 670,000 of these were planted after the war. The state sector owns 84,200 of these trees, the cooperative sector 381,900, and the private sector 1,524,000.

Cooperatives own over 2,500 hectares of orchards, and state farms own over 400 hectares of orchards and vineyards.

Shrubs cover 190,000 hectares of the karst section of Montenegro and are estimated to contain 1,900,000 cubic meters of wood. This section of Montenegro also contains 111,000 hectares of miscellaneous forests containing 12,140,000 cubic meters of lumber. The above shrubs and miscellaneous forests amount to 301,000 hectares, or 50 percent of all forest-covered areas in Montenegro.

At present, Montenegro produces about 600 tons of wool and about 700 tons of cotton /per year/.

The total Montenegrin agricultural production in 1939 amounted to 1,310,000,000 dinars; in 1947, 990,000,000 dinars; in 1948, 1,134,000,000 dinars; in 1949, 1,219,000,000 dinars. The plan for 1950 called for an agricultural production amounting to 1,583,000,000 dinars.
